

A family lived in Sukhpur village. It was a family of a mother, a father and two children.

TINU MINU & SUPER BUG

An Awareness Story

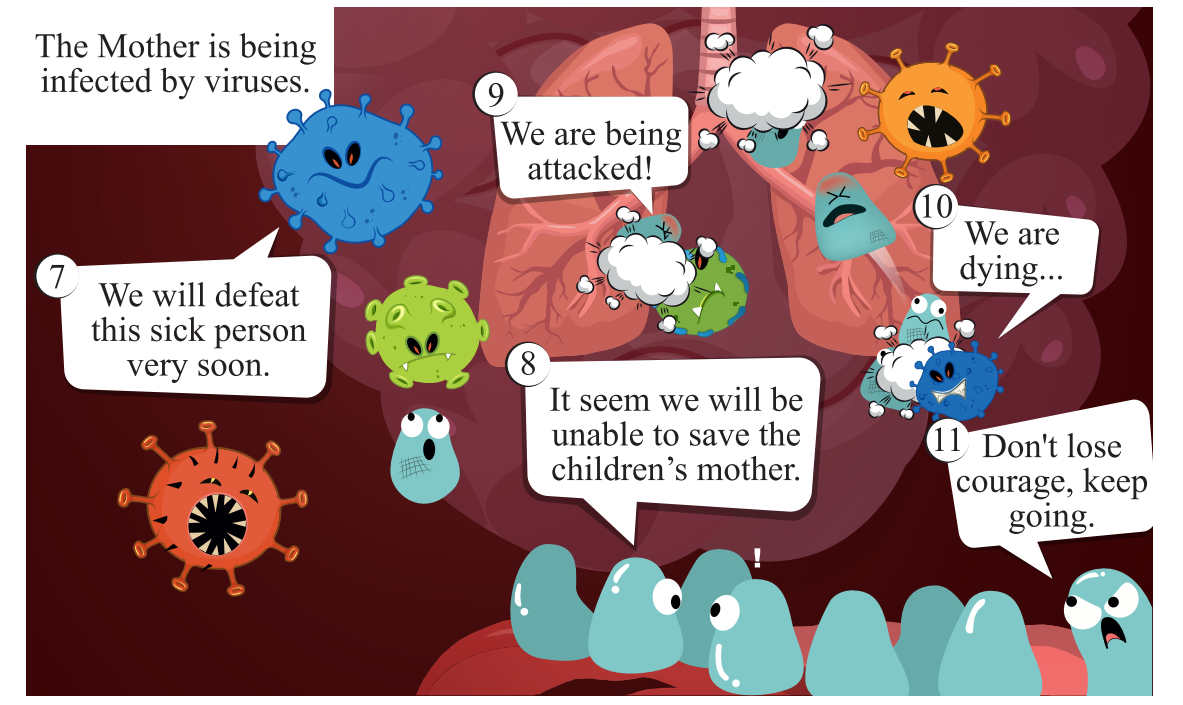

1 This is mine.
2 No, this is mine.
3 meow... meow...

Mother has been ill for several days.

4 Tinu, minu come here.
5 Mother is very sick.
6 Father has gone to Dhaka. But Mother needs to visit a doctor.

The Mother is being infected by viruses.

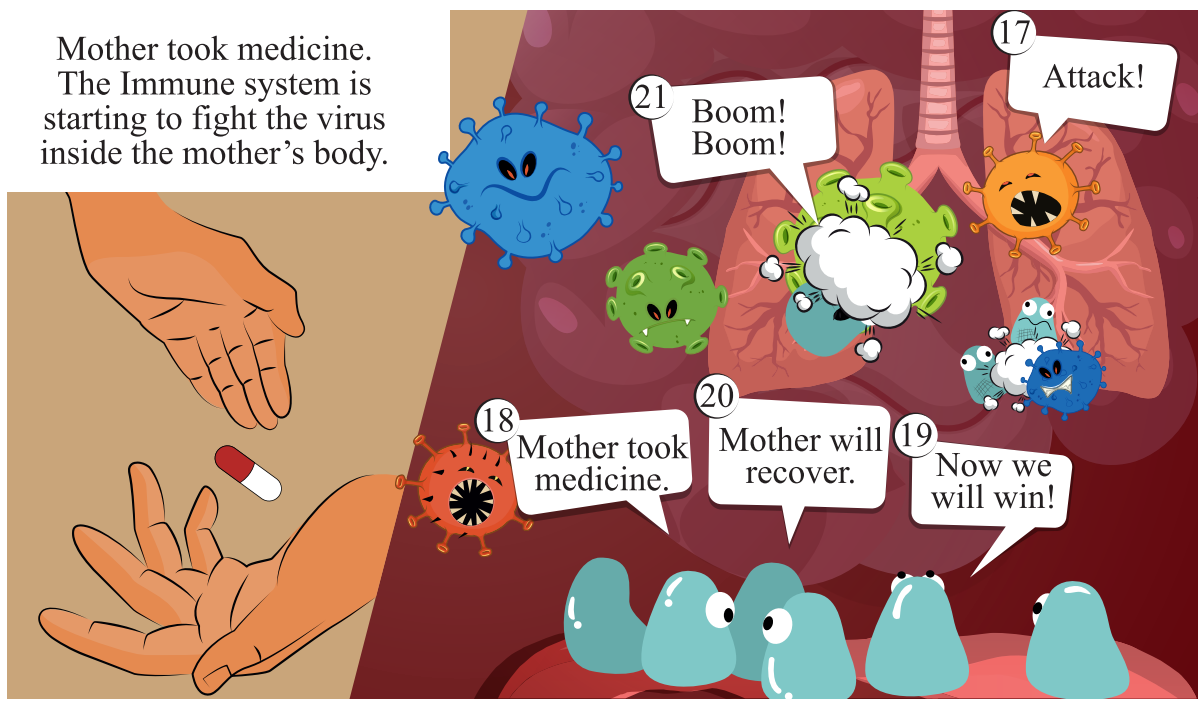

7 We will defeat this sick person very soon.
8 It seem we will be unable to save the children's mother.
9 We are being attacked!
10 We are dying...
11 Don't lose courage, keep going.

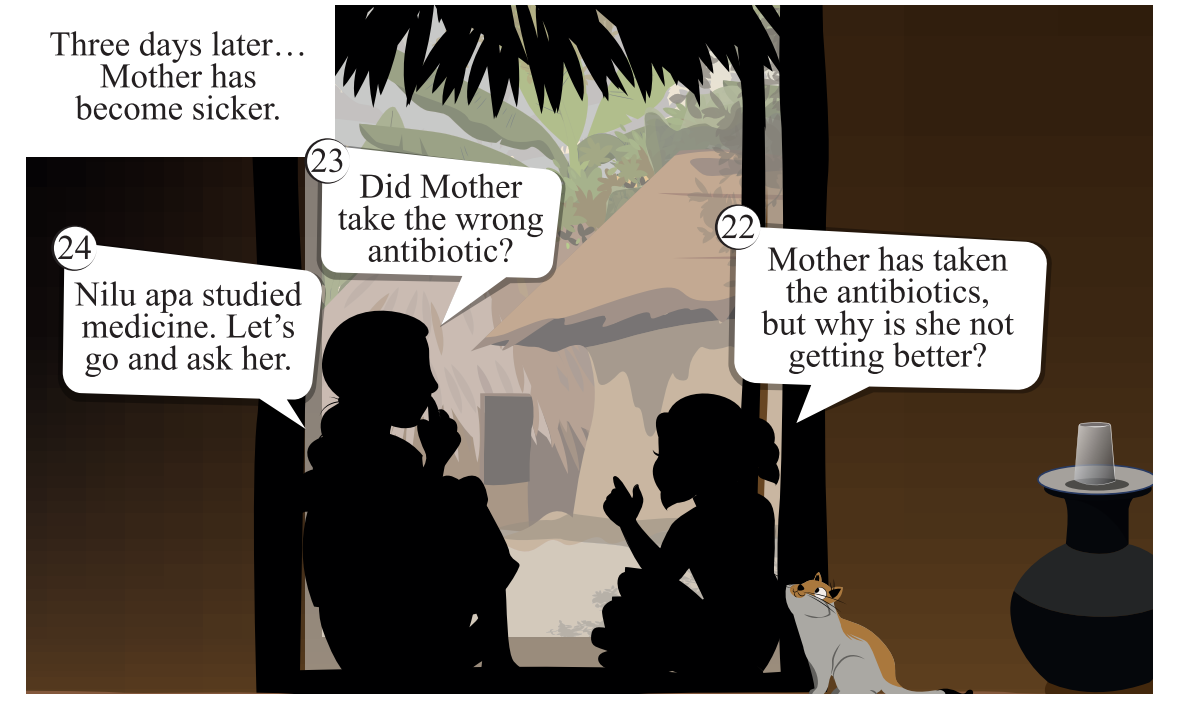

12 Tinu give me one antibiotic from the medicine box.
13 Which one, mother?
14 The antibiotic your father took during his fever.
15 Father's only had a fever but you are sicker. You have a fever, cold and shortness of breath.
16 Don't talk too much, bring me the antibiotic.

Mother took medicine. The Immune system is starting to fight the virus inside the mother's body.

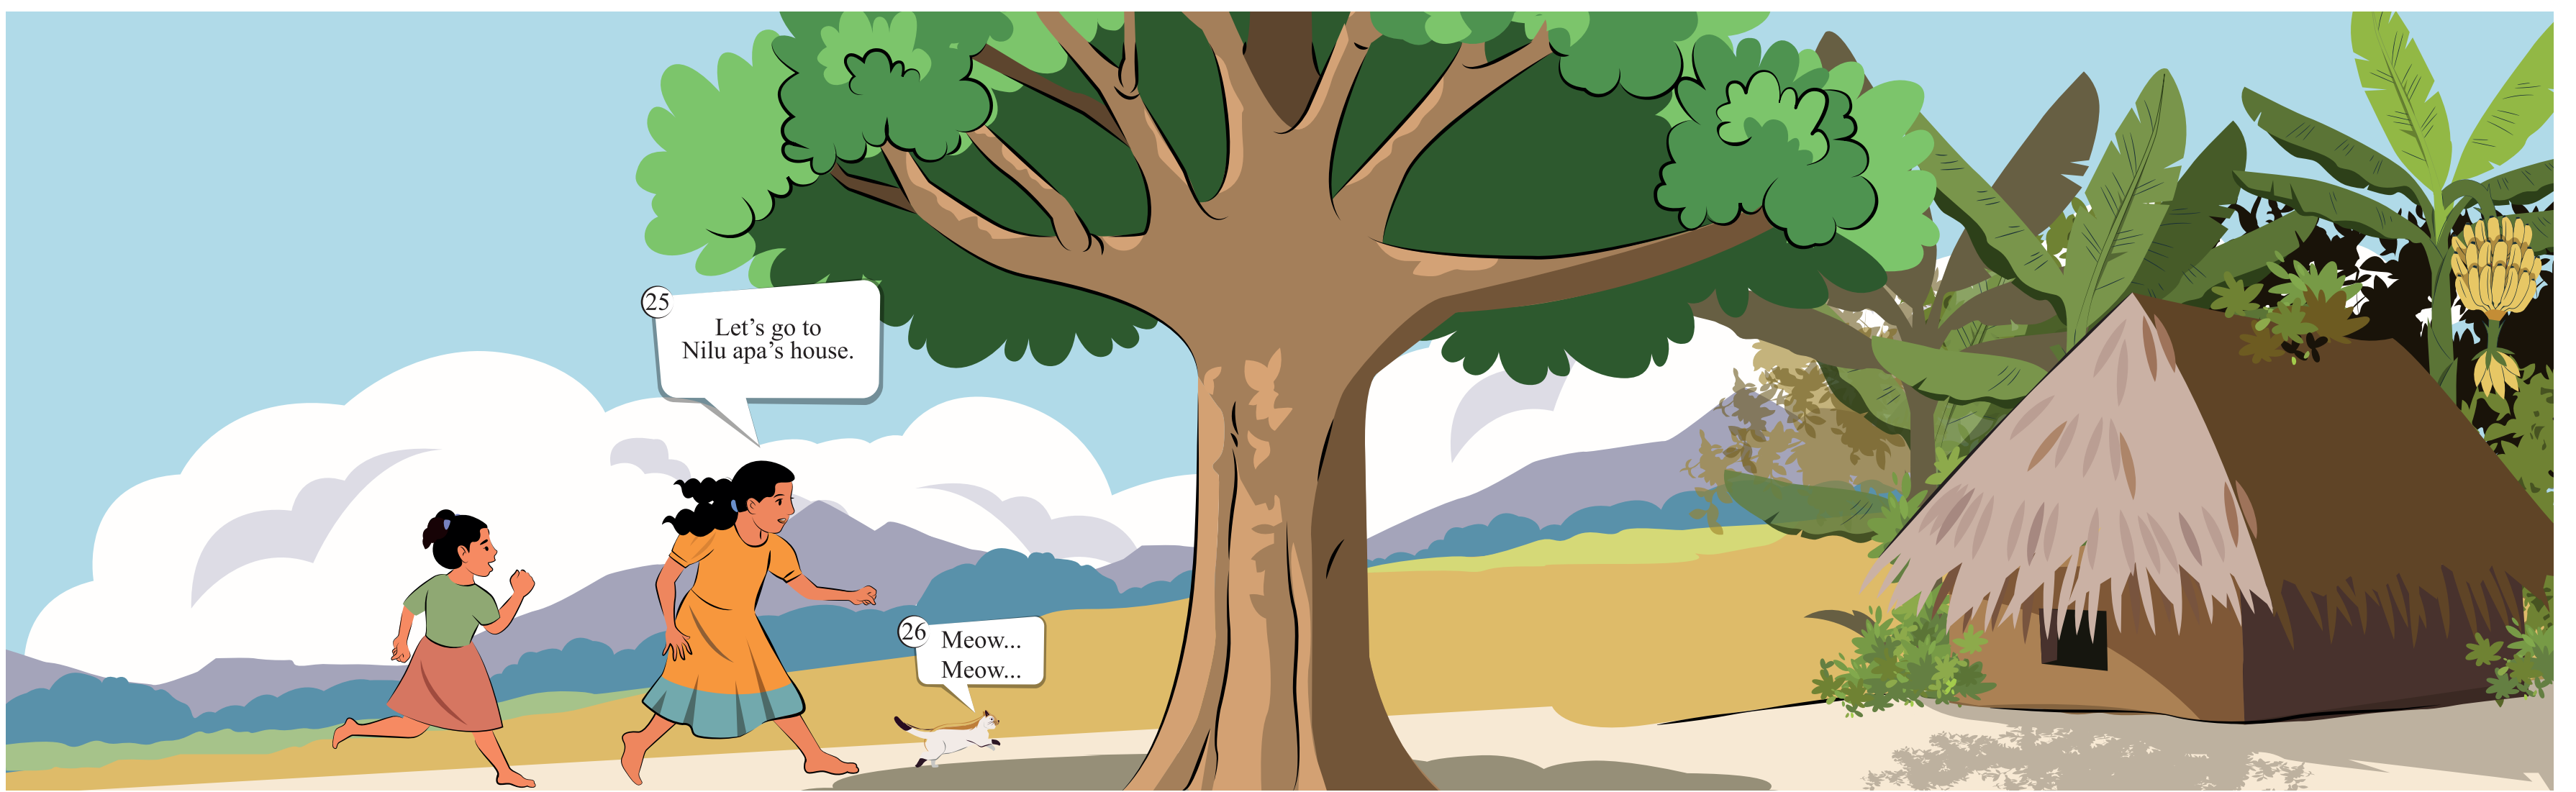

17 Attack!
18 Mother took medicine.
19 Now we will win!
20 Mother will recover.
21 Boom! Boom!

Three days later... Mother has become sicker.

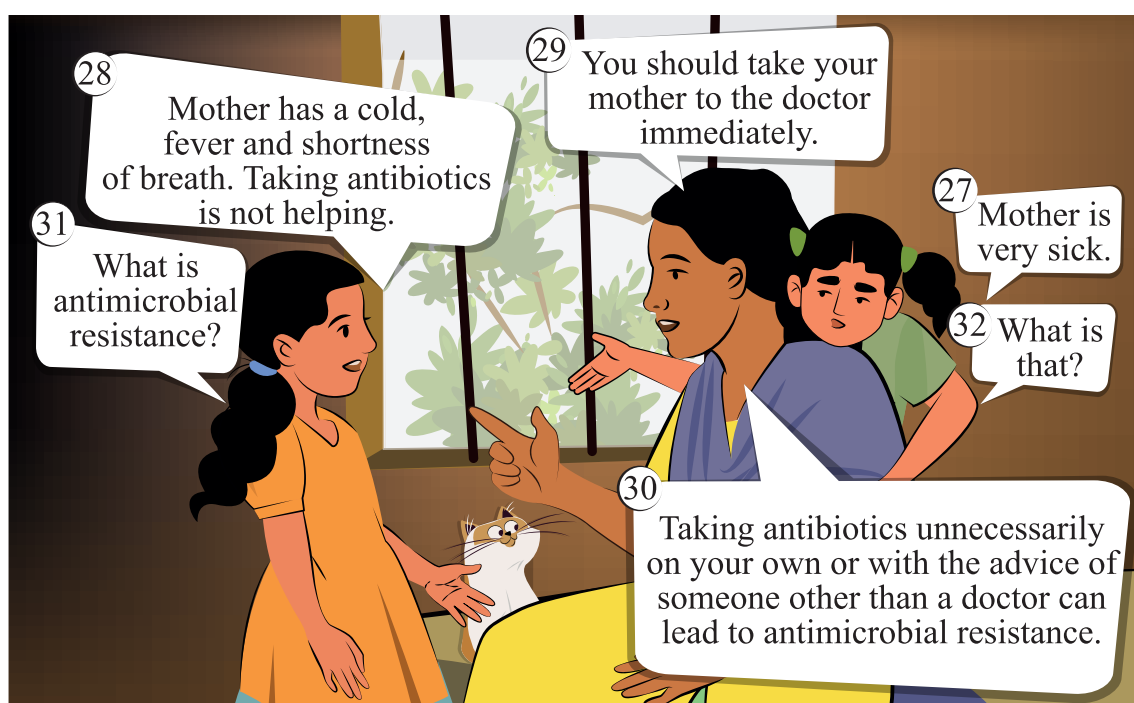

22 Mother has taken the antibiotics, but why is she not getting better?
23 Did Mother take the wrong antibiotic?
24 Nilu apa studied medicine. Let's go and ask her.

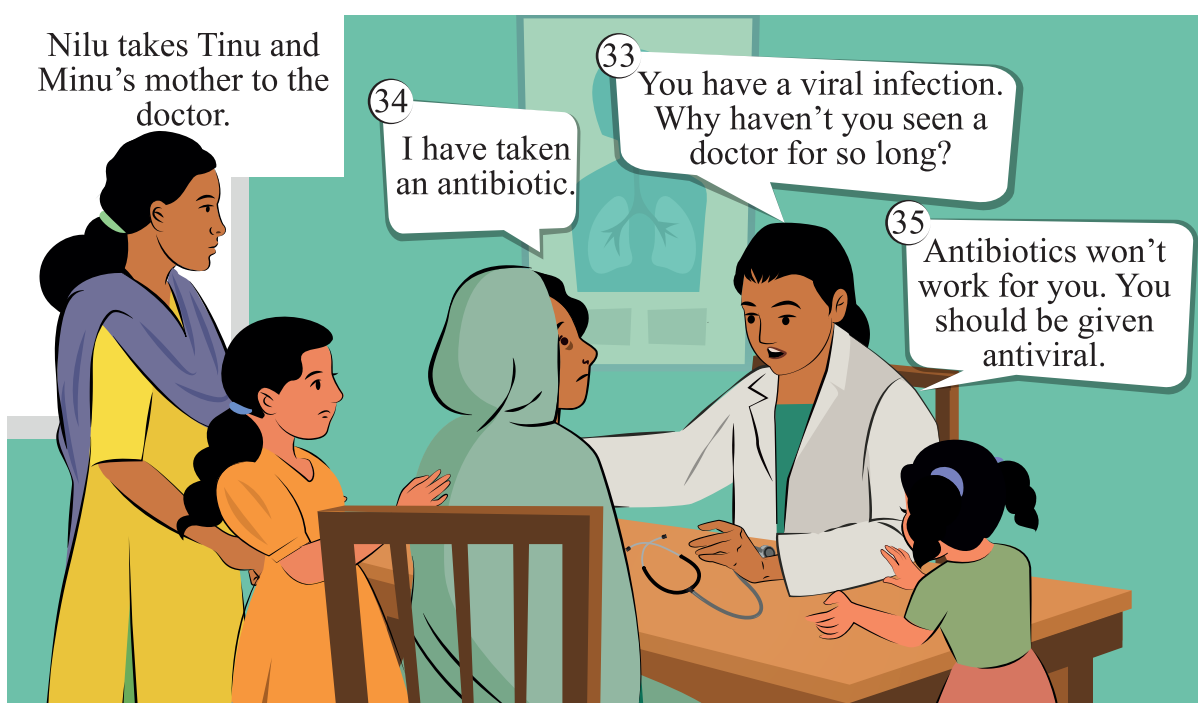

25 Let's go to Nilu apa's house.

26 Meow... Meow...

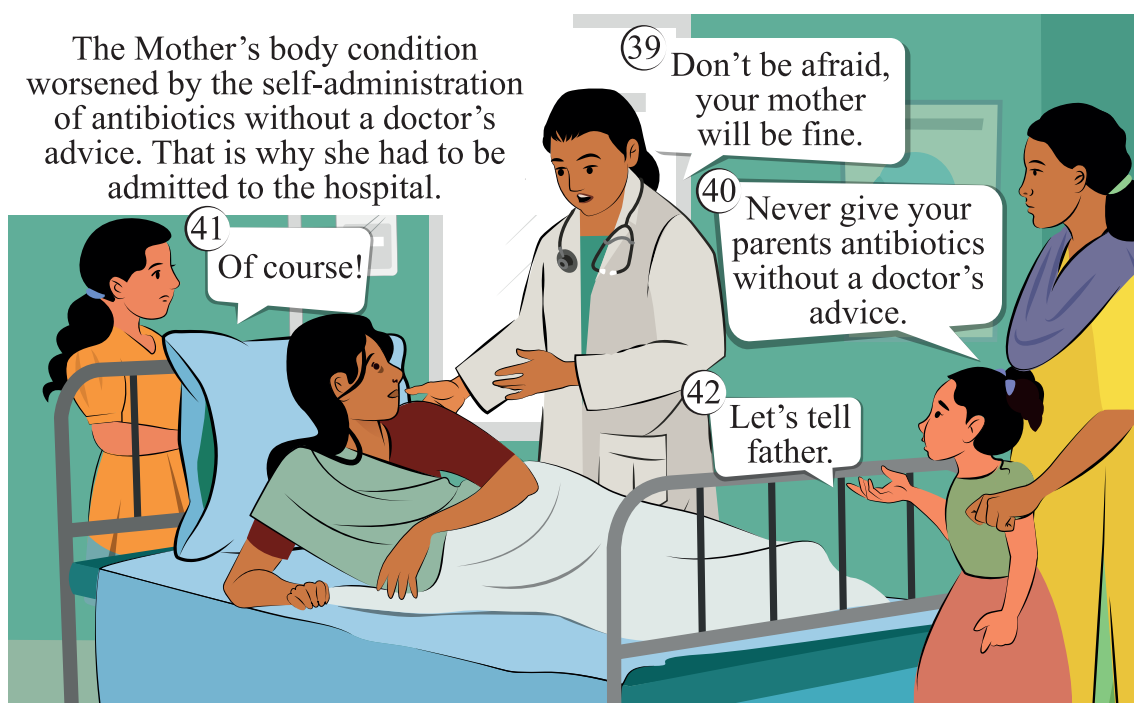

27 Mother is very sick.
28 Mother has a cold, fever and shortness of breath. Taking antibiotics is not helping.
29 You should take your mother to the doctor immediately.
30 Taking antibiotics unnecessarily on your own or with the advice of someone other than a doctor can lead to antimicrobial resistance.
31 What is antimicrobial resistance?
32 What is that?

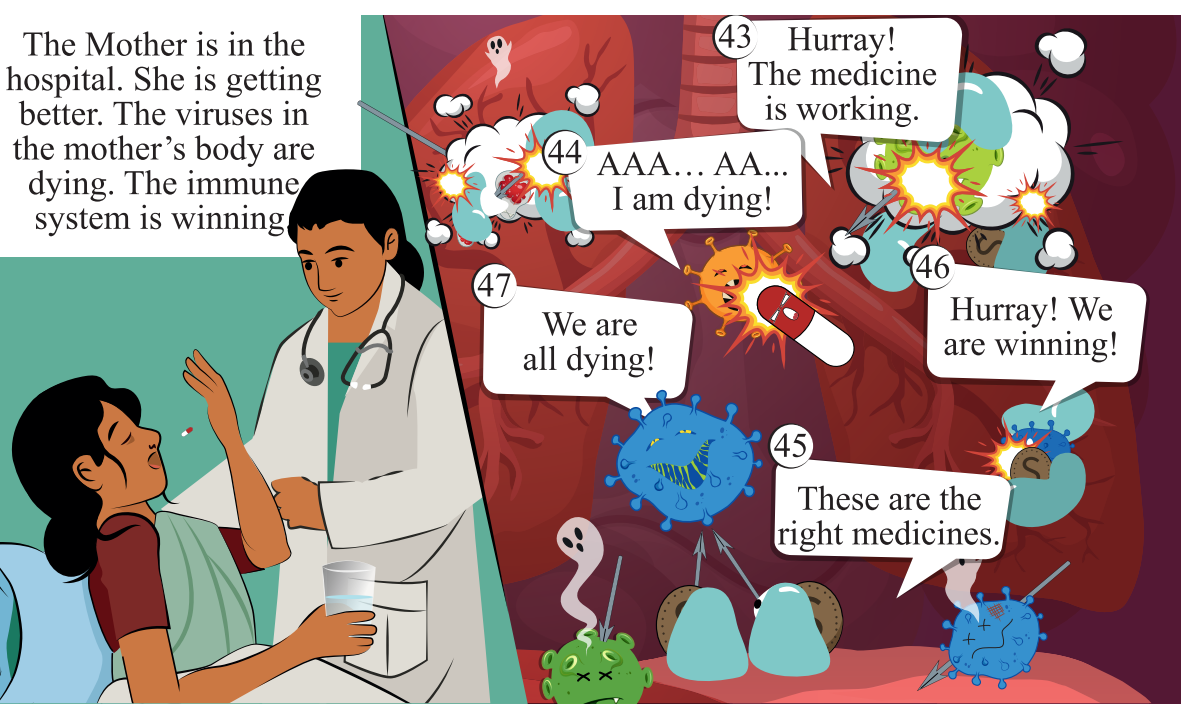

33 You have a viral infection. Why haven't you seen a doctor for so long?
34 I have taken an antibiotic.
35 Antibiotics won't work for you. You should be given antiviral.

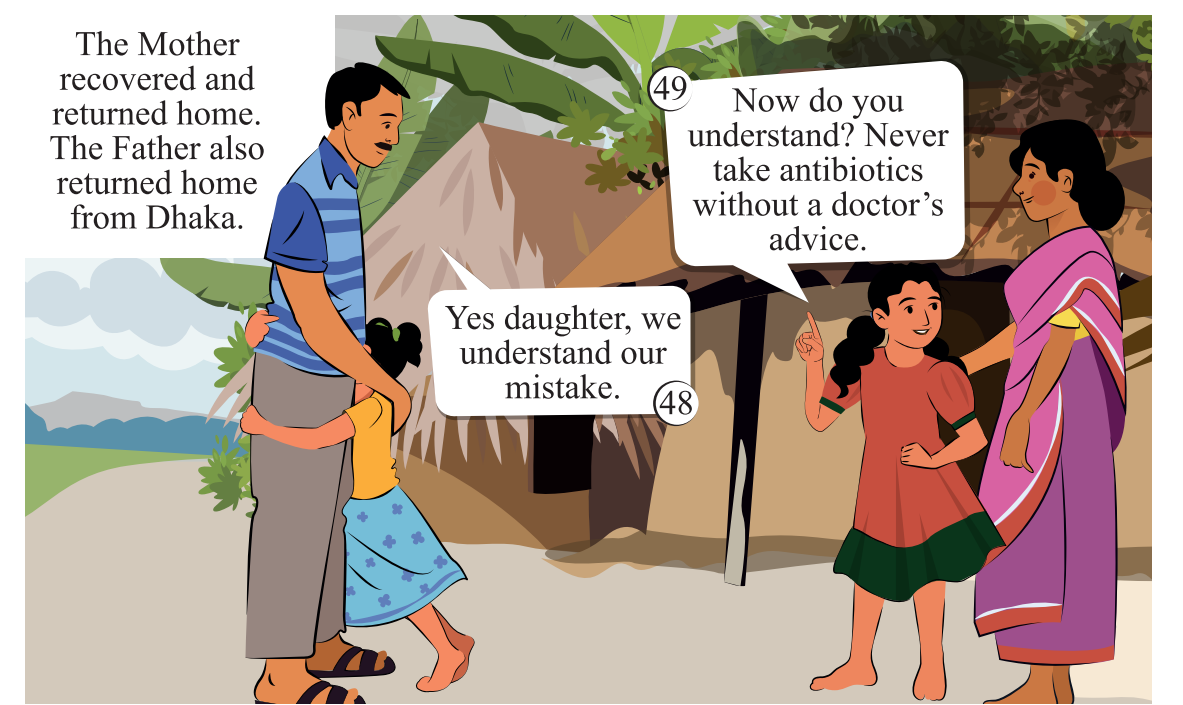

36 You need to be admitted to the hospital.
37 Hospital!!
38 Is Mother that sick?

39 Don't be afraid, your mother will be fine.
40 Never give your parents antibiotics without a doctor's advice.
41 Of course!
42 Let's tell father.

43 Hurray! The medicine is working.
44 AAA... AA... I am dying!
45 These are the right medicines.
46 Hurray! We are winning!
47 We are all dying!

48 Yes daughter, we understand our mistake.
49 Now do you understand? Never take antibiotics without a doctor's advice.
The Mother recovered and returned home. The Father also returned home from Dhaka.
